

TO WHOMSOEVER IT MAY CONCERN

This is to certify that we had procured three nos. of High Pressure Triplex Plunger Pump, Model HC 370R from **M/s. PressureJet Systems, Ahmedabad**, vide our first P.O. Letter Dated 14/07/06, Second P.O. Dated 14/08/06 and Third P.O. Dated 26/08/06. These pumps had been successfully installed in our service station for vehicle cleaning application.

Due to very good quality of **PressureJet HC-370** Vehicle cleaning pump, which they are manufacturing in technical collaboration with **M/S. Leuco S.p.A. - Italy**, we have placed two repeat orders and are using at present totally three nos. of HC-370 pumps of **PressureJet System**.

We have been using each pump at an average of 10 hours daily and 300 hours in a month (approx.).

Out of these three, one pump is used for Bajaj Bike cleaning and two pumps are used for three-wheeler/Auto Rickshaw cleaning.

During the operation, performances of all these three pumps have been found quite satisfactory. At present, they are running absolutely without any problems. So far, we did not require replacing any plunger and its seal in these pumps, since the date of purchase. Also we have not required any after sales services from them until now.

With Best Regards,

For Manan Motors Pvt. Ltd.
